

UFS SERIES

Plastic Flow Switch

- ❑ Excellent Pump Protection
- ❑ Corrosion Resistant
- ❑ All Plastic Rugged Design

Product Description

The Heavy Duty Truflo® UFS Series flow switch is easy to install and offers excellent chemical resistance and reliability.

The UFS Series is available with a normally open or normally closed reed switch contact. The nominal switching point is determined by the length of the paddle.

During installation, the paddle is typically cut at a mark based upon the pipe diameter, equating to the highest possible switch sensitivity and lowest switching point. Installation is easy; simply insert the UFS Flow Switch into an appropriately sized Tee fitting, and it's complete!
